Investment Advisor Representative

For individuals seeking investment services including purchasing certificates of deposit and securities, including mutual funds they may want to meet with an Investment advisor representative. Investment Advisor Representatives (IARs) are individuals who are employed by state or federal registered investment firms. IARs can make recommendations or provide advice on the value, purchase, and sale of securities and are knowledgeable of most types of investments, including certificates of deposit, stocks, bonds, exchange traded funds, mutual funds, derivatives, and other less common investment products.

IAMS Wealth Management is a registered investment advisor (RIA) at the federal level with the United States Securities and Exchange Commission. RIAs support a family of investment advisor representatives through a multitude of services, including access to proprietary investment platforms. The Investment Advisor Representative at First Capital Group, Inc. is registered with IAMS Wealth Management.

TD Ameritrade is utilized as the custodian for your Investment Advisor Account with IAMS Wealth Management. At TD Ameritrade, your money is with one of the world's largest discount brokerage firms. With that recognition and reputation comes a commitment to both excellent client service and account information protection. You'll receive clear, concise statements that summarize all of your portfolio positions, including all balances, dividends and transactions.

First Capital Group, Inc., IAMS Wealth Management and TD Ameritrade are unrelated entities.

Investment advisory services are offered through IAMS Wealth Management, an SEC registered investment advisor. IAMS Wealth Management only transacts business in states where it is properly registered, or is excluded or exempted from registration requirements; SEC registration does not constitute an endorsement of the firm by the commission and does not imply that the advisor has achieved a particular level of skill or ability. All investment strategies have the potential for profit or loss. There is no guarantee that a specific investment or strategy will be suitable or profitable for an investor's portfolio. Asset allocation and diversification do not ensure or guarantee better performance and cannot eliminate the risk of investment losses.
